It's an opportunity worth seeking.

As this large group of Jews meets in Central Oregon, they are asking for some assistance, if possible. They will be koshering the kitchen for the days before the meeting. They still need one or two folks to help with the process (need not be skilled at koshering). There is a request from Jack Kessler for a nylon string guitar to borrow for the week. Banners, decorations, etc would help transform Eagle Crest into a sacred Jewish space if anyone has materials that could be borrowed. And finally, if anyone would be willing to share a space for folks to stay during the time to reduce the cost for them (as with the other requests), please contact info@ruachhaaretz.com or call 415-339-8677.
